About the software

It replaces the monthly Excel and Word work of a manpower agency supplying staff under GeM contracts: one attendance entry produces the bill, tax invoice, covering letter and salary sheet, on your own letterhead.

- **Built for GeM manpower billing:** service charge on the total before GST, CGST + SGST or IGST, employer EPF and ESIC, amounts in words, per-project sub-bills combined into one tax invoice.
- **Fewer errors:** every figure is calculated the same way every month, in whole paise, and checked by automated tests.
- **Secure and online:** works in any browser at your own web address with HTTPS; bank and Aadhaar numbers are stored encrypted.
- **Currently in daily use** by manpower agencies supplying staff to ICMR-NIHR, Bhubaneswar.
